## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Snowden.
3. Snowden discloses a fiber forming device which includes a rotor having a receiving chamber and outlet disposed at the outer periphery. The device also contains a resin tank (17). The resin tank decreases in cross-sectional area on approach to the outlet and the delay side and advance side of the tank side walls form an angle between them. See especially Fig. 6.

### ***Allowable Subject Matter***

4. Claims 6-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 12-14 are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not suggest a heating device adjacent to a rotor having a receiving chamber, outlet and reservoir tank or the high frequency induction heating.
